BINGHAMPTON, June 13 .- A terrific g ale accompanied by torrents of rain and, hail, passed over this city between three and four o'clock yesterday afternoon. The elegant mansion of Chancellor Temple was the scene of a splendid entertainment yesterday evening, in the shape of a select party given by his accomplished daughter, Miss Mary B., to the misses and young gentlemen of her acquaintance. We had the pleasure of being present for a short time, and have never witnessed an occasion where all seemed to enjoy themselves in a higher degree than this. Arriving at the house, we found Hodgson's String Band discoursing lively music, while James F. Lowery, who seems a desideratum at Knoxville parties, was superintending a dance which was beinn participated in by a score or more of beautiful blushing misses and as many young gentlement while the spacious halls filled with smiling faces and happy young couples were promenading back and forth with light elastic step which in-dicated their unalloyed pleasure. No distinctions were to be seen there, but each one seemed to join in with the social spirit which manifested itself so strikingly, and vie with every other, in rendering the occasion an agreeable one. Mrs. Temple was everwhere present with her cheerful smiles and conversation to inspire her guests with a feeling of welcome, while Miss Mary was the center of attraction among her young associates. The Judge received all with the cheerful welcome which characterizes his hospitable mansion.

At eleven o'clock the music and dancing ceased, and those present were treated to a collation which Kings and Princes might well envy Those who have attended parties at Temple's know how she excels in this particular. We took our leave soon after, regretting to depart and feeling in our inmost soul that it was "good to be there.

Colonel Forney on Wilson.

Colonel Forney's admirable opportunities for observing the leading men of our tion of railroad officers was in seasion in this country have not been left unimproved. He writes of our candidate for the Vice Presidency as follows:

Henry Wilson is a superb organizer. His temperate life and high principles, his fine health and strong convictions, his knowledge of the prejudices and wants of men, made him a great power against the rebellion, as well in the army as on the Committee on Military Affairs. The amount of work he performed was prodigious. He was a real break-of-day man—a sleepless, untiring, unmurmuring patriot. A little too impulsive, perhaps, he is one of the truest of hearts-warm, generous and forgiving. His frugal habits accord with his strict integrity. He is inexpensive in his tastes, and desires and lives among his books and his friends. He visits a great deal, and reads much. Active and quick, regularly in his seat in the Senate, he is often seen on | Executed on short notice at low figures. the Avenue and in society, though he never touches wine or cigars. He is a thorough common-sense man, and a natural medium between quarreling friends. His blows are for the enemy; his forgiveness for his associates. He hates corruption as he hated slavery, and he will go far to punish a faithless trustee. Such is our candidate for Vice President. Is he not an argument in himself? Especially so when we reflect that this man worked for the lowest wages as a boy on a farm, and began to learn shoemaking when he was twenty-one years of age!

How the President Wrote his Letter of Acceptance.

We find the following in the Associated

Press reports of Tuesday: The President wrote his letter of acceptance of the Philadelphia nomination while at the capitol yesterday afternoon, after his return from the Executive Mansion, where he had received the presidents FRIDAY & SATURDAY, and vice presidents of the convention. Sitting down at a table, he carefully read the letter which formally notified him of the nomination, and taking up a lead pencil commenced writing the reply on a halfsheet of letter paper. The President wrote rapidly, and, when he had finished the letter, read it aloud to those present, on which they all expressed themselves highly pleased with it. A verbal alteration was suggested by one of the gentlemen present, which was accepted by the President, but with this exception the original draft of the letter bore no erasure.

its potent power to cure them.

Not only does the Sarsaparillian Resolvent excel alknown remedial agents in the cure of Chronic, Scrofulous, Constitutional, Skin und Syphiloid diseases, but it is the only positive remedy for

Kidney, Bladder, Urinary and Womb Diseases, Gravel, Diabetes, Dropsyl Incontinence of Urine, Bright's disease, Albuminusyl Incontinence of Urine, Bright's disease, Albuminuria, and in cases where there are Brick dust deposits, or the water is thick, cloudy, mixed with substances like the white of an egg, or threads like white silk, or there is a morbid, dark, bilious appearance, and white Bone dust deposits, and where there is a pricking, burning sensat on, and pain in the small of the back and along the loins. THE WASTES OF Th's BODY Are supplied with new, healthy and vigorous blood, that furnishes sound structure. Hence all suffering from weakening discharges, either male or female, or from Ulcers or Sores, through the reparative process of Radwar's Sarsaparillian are arrested, and the ruptured organs healed.

THE TRUE THEORY OF CURE.

RADWAY'S SAHSAPARILLIAN RESOLVENT supplies the system, through the blood, urine, sweat and structure, making constituents, with Tissue-making, Flesh-making, Heat or Caloric and Fat-Making elements. All of its constituents are nourishing purifying and strength-ening. It repairs, heals, resolves and drives out of the body the products of decay and corruption. Consumption, White Swelling, Dropsy, Syphilis, Cancer, Tumors, &c., are all of a scrofulous diathesis, and, as suc are within the curative range of the Sarsaparillian Re-That Scrofula, by whatever name designs ad, is the result of deposits from the blood, induced or caused by

chronic inflammation. That those deposits take place when the blood is poor, weak, watery, and incapable of holding in solution its proper constituents, or from the presence of seme virus or poison in the blood, as Mercury, Calomel, Corrosive Sublimate, which is the Corrosive Chloride of Mercury, or other agents, given in midicines, and which enters largely in the comn on advertised Sarsaparillas, not absorbed or changed from their natural condition. That unless the repairs or nutriments are greater

than the wastes, that decomposition and decay will supervene, and the powers of life become exhausted.

That the dying body cannot be sustained on any treatment of medication that exhausts the system or fails to nourish the blood, the only medium through which the vital forces. which the vital forces are preserved, and on which the growth of the body depends. OVARIAN TUMOR CURED.

Never has a medicine taken internally been known to have cured tumors either of the womb, uteri, ova-ries, or bowels; the knife has been the sole reliance in the hands of experienced surgeons; but Dr. Radway's Sarsaparillian settles this question. For it has cured over TWENTY persons of OVARIAN CYSTS and TUMORS, as well as Tumors in the bowels, uterus, womb, liver, Dropsical Effusion, Ascites, and Calculus Concretions.
